

Paper Kingdom Installation Instructions – Mac Operating System

Thank you for your interest in playing Paper Kingdom! This document will walk you through the installation steps needed to get Paper Kingdom working on your Mac computer. Follow along with this installation guide to get the game running.

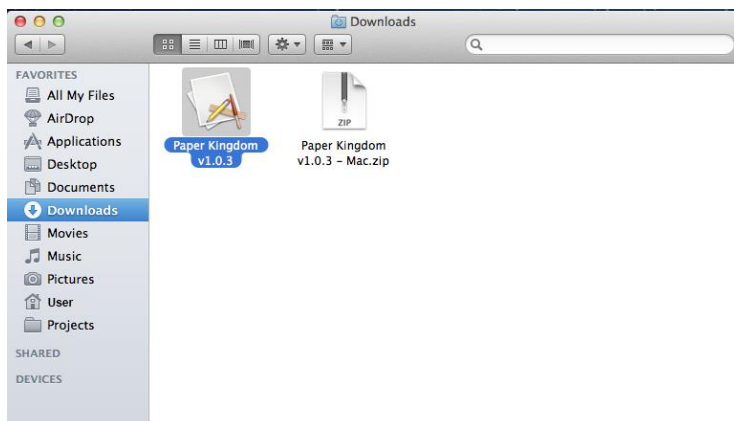

1. If your computer is currently running on a Mac, download the latest version of the Paper Kingdom game software for your Mac's operating system from the nhlbi.nih.gov website.
2. Once the Paper Kingdom software has been downloaded to your computer, click on the **Paper Kingdom.zip** file:

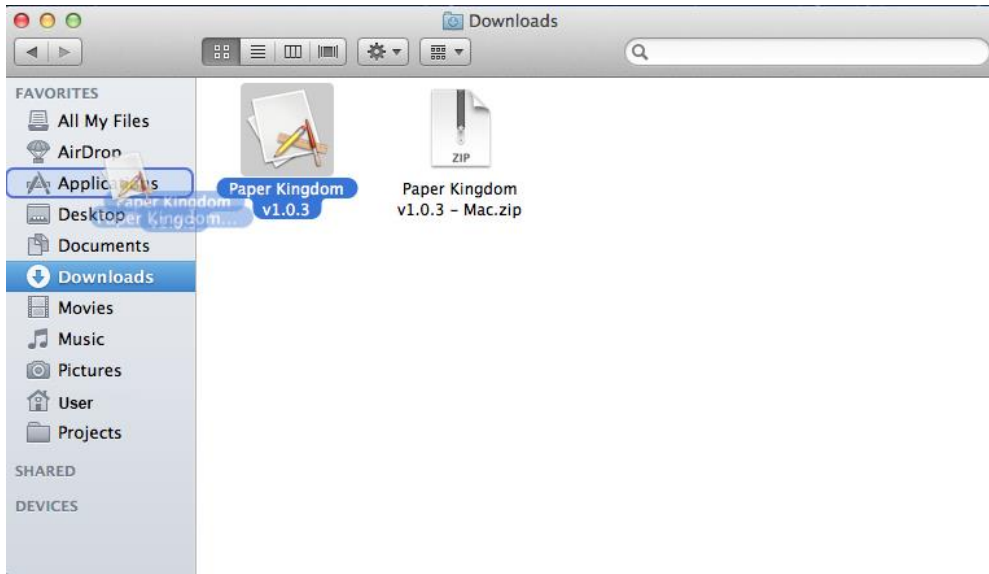

3. An Expanding Paper Kingdom box will appear. Wait for the blue bar to finish.

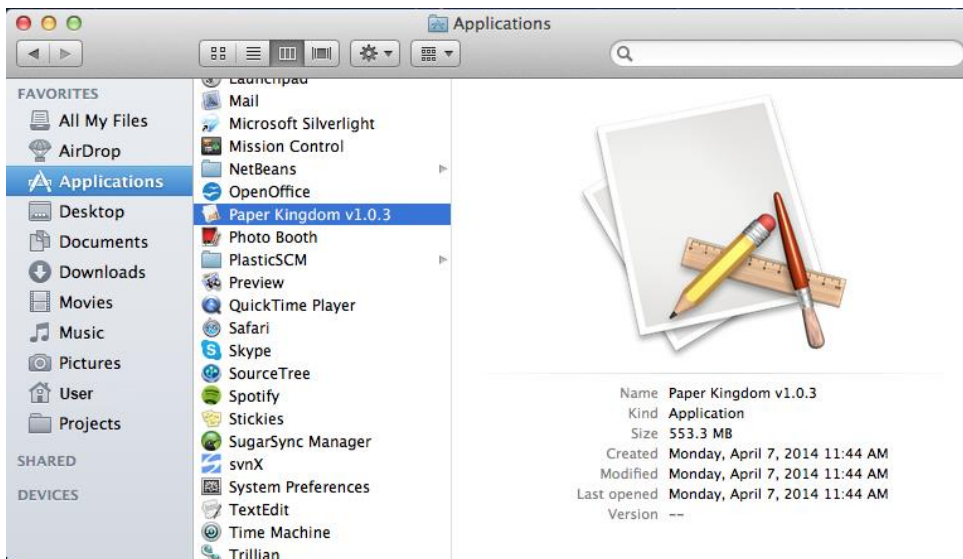

4. You now have a Paper Kingdom application on your computer. The version number shown may be different from the latest available version. That's ok. Click on the **Paper Kingdom** file.

5. Drag the Paper Kingdom application to the **Applications** folder.

6. Verify that the Paper Kingdom application is in the Applications folder.

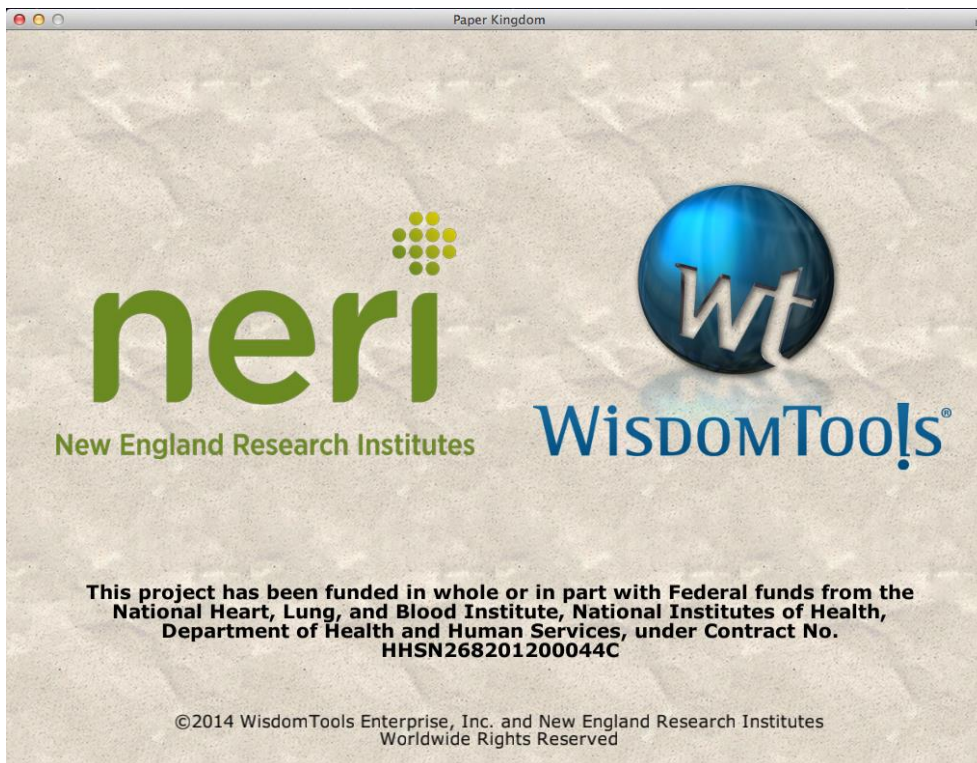

7. Click on the Paper Kingdom application in the Applications folder. Click on the **Open** button.

8. The (Are you sure you want to open it?) box appears. Click on the **Open** button.

9. The Paper Kingdom game will launch. Enjoy!

If you have any problems installing this software or require additional assistance, please check the nhlbi.nih.gov website for support instructions.
